Coimbatore, India.

SUMMARY:

Healthcare professional with 6+ years of experience in claims processing, healthcare operations, and document management, transitioning into Data Analytics. Skilled in Python, SQL, Excel, and Power BI with hands-on experience in data cleaning, data analysis, reporting, and dashboard development. Strong ability to analyse business requirements, interpret data, and deliver actionable insights to support decision-making. Adaptable professional with strong analytical, problem-solving, and process management skills.

CERTIFICATIONS:

Data Analytics - Entri Elevate (in collaboration with Illinois Tech, US)

Feb 2026 – Sep 2026

- Developed interactive Power BI dashboards using DAX, KPIs, data modeling, slicers, and drill-through features to visualize business performance and support data-driven decision-making.
- Utilized SQL and Python (Pandas, NumPy, Matplotlib) to extract, clean, transform, and analyze data from multiple sources, performing exploratory data analysis and generating actionable insights.
- Leveraged Excel features such as Pivot Tables, Power Query, and Lookup Functions to clean, organize, and analyze data efficiently.

SKILLS:

- **Programming:** Python (Pandas, NumPy – basics)
- **Database Management:** SQL (Joins, Aggregations, Filtering)
- **Data Visualization:** Power BI (Dashboards, DAX basics)
- **Spreadsheet Tools:** Excel (Pivot Tables, VLOOKUP, Data Cleaning)
- **Soft skills:** Analytical Thinking, Problem-Solving, Attention to Detail

PROJECTS:

Excel Capstone Project - E-Commerce Analysis – [E com](#)

- Cleaned and transformed raw datasets by handling missing values, duplicates, and inconsistencies
- Performed exploratory data analysis to identify sales trends, customer behavior, and category performance
- Built Pivot Tables and dashboards to visualize key business metrics
- Derived insights to support decision-making and improve business performance

Mini Project – Excel and Power Bi - Medical Claims Denial and Payment Analysis – [Claim denial rate](#)

- Developed an interactive Medical Claims Denial and Payment Analysis Dashboard using Power BI and Excel to track healthcare revenue cycle performance.
- Analyzed claims, approvals, denials, denial rates, and insurance types to identify trends and improve operational visibility. Performed Accounts Receivable (AR) and financial analysis to monitor outstanding balances, payments, and revenue metrics.
- Created DAX measures, KPIs, cards, slicers, and interactive visualizations to deliver actionable insights and support data-driven decision-making.

EDUCATION:

Bachelor of Science (Electronics and Communication Systems) - Sri Krishna Arts and Science College, Coimbatore

WORK HISTORY:
